# ABOUT US

---

**BASCO** Consulting is spearheaded by an experienced and knowledgeable team of entrepreneurs to take HSE to greater heights in the Middle East.

---

**BASCO** is a solutions provider working in the fields of Occupational Health, Safety, Social, Environmental (OHSSE), Service Quality (SQ), and Process Assurance (PA).

- Industry experience in HSE requirements; interpretation; implementation and monitoring.
- Possesses the strength in facilitation and supporting of Leadership and the HSE Office in the change management process regarding improvement initiatives “buy in” by respective workplace stakeholders (Including Trade Unions) and “Walk the Talk” on matters related to HSE culture and expectations.

- Ensures the company HSE professionals are clear of management expectations and confident in supporting the business in the strides for Zero Harm.
- Capacity to provide professional Health, Safety, and Environmental resources to develop and/or implement HSE processes and provide comprehensive support in operational sites.
- Value for money service to maintain Zero Harm status.

## OUR VISION

The vision of the BASCO company is to contribute to the achievement and maintenance of Zero Harm to people and the environment at work in the Middle East continent by influencing the efficiency of business operations through integration of HSE processes in day-to-day and strategic activities using the consulting services to support, advise, coach, train, and monitoring.

# OUR MISSION

- The company was established to enable companies to break the HSE plateau to greater heights; support companies that are at HSE implementation stages; support the Executives on Visible leadership and strengthen the capacity of HSE Professionals to support business.
- respond to business-identified gaps that hinder them from achieving or maintaining greater and sustained HSE performance.
- to ensure client satisfaction with the delivery of integrated and sustainable standards in Occupational Health, Safety, and Environment services.
- to facilitate and support organizations to take HSE to greater heights

# OUR RESPONSIBILITY

01

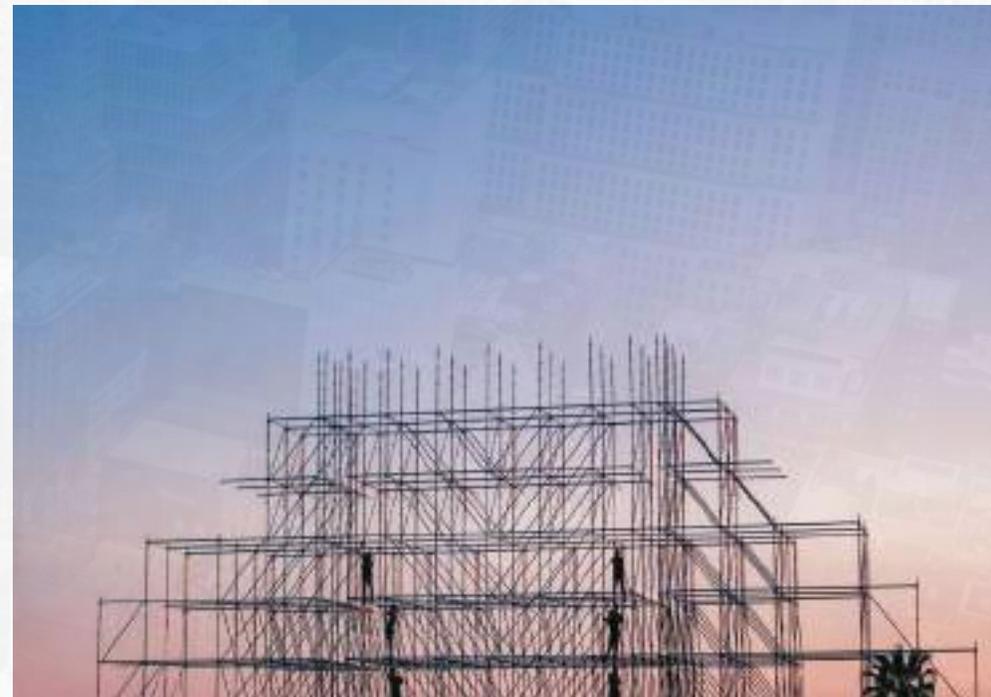

**BASCO** company acknowledges that the company does not operate in a vacuum but that its actions and decisions impact its immediate communities, society in general, and the environment.

02

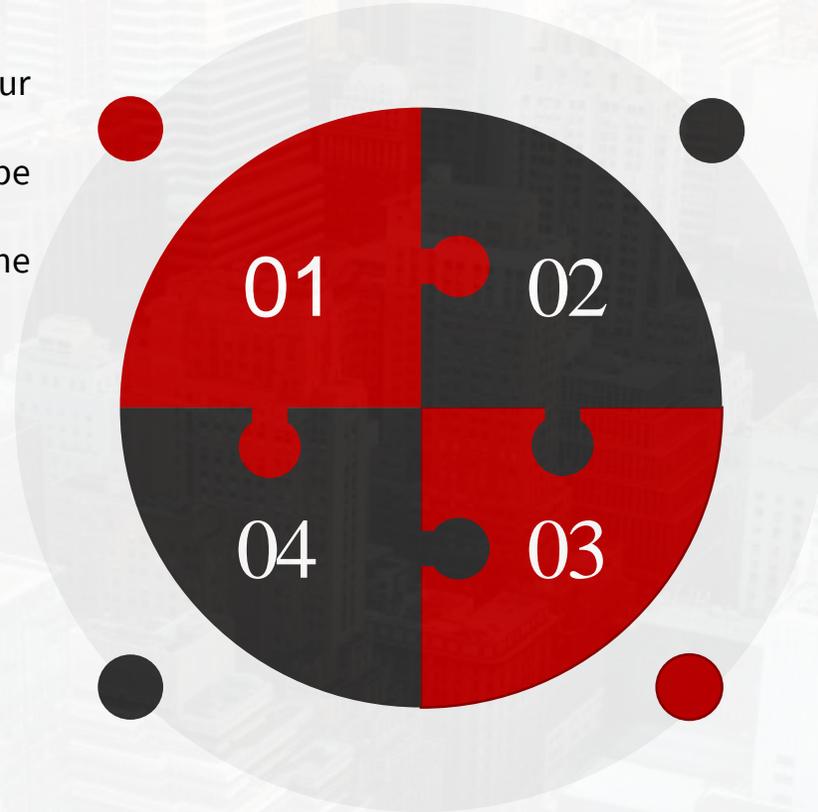

For **BASCO** company, corporate social responsibility is not merely an aspect of good governance, but a primary consideration in decision-making, from policy development to each staff member's actions on the ground.

# OUR VALUES

These core values reflect what is truly important to us as an organization. They do not change from time to time, situation to situation, or person to person, but rather they underpin our Group culture. What we do can affect people's lives. It is important therefore that our customers can rely on us that we will do things right - we mean what we say, and we do what we say. We aspire to the highest quality standards internationally in the safety and security industry. Consequently, we maintain the highest quality accreditation, constantly train our staff at all levels, and maintain certification and membership in international organizations related to our services.

# OUR RESPONSIBILITIES

Plan, Manage, and Monitor all work carried out by Our workers, considering the risks to anyone who might be affected by it (including members of the public) and the measures needed to protect them.

Check that Our workers employed or appointed have the skills, knowledge, training, and experience to carry out the work.

Comply with directions given by the principal designer or principal contractor. Ensure suitable welfare facilities are provided from the start for workers under their control and maintain them throughout the work.

Make sure that all workers under Our control have a suitable, site-specific induction and provide appropriate supervision, information and instructions to workers under their control.

## **OUR COMMITMENT**

Construction can be dangerous. But when a company commits to safety, it can create a workplace in which employees can reasonably expect to have a career free of injury and illness. At Warwick, safety is a core value of our everyday culture, and we are continually enhancing safety and health policies, demanding that everyone, from executive management to the most recently hired trainee, understand the importance of maximizing workplace safety and health. By following safe work practices, such as those outlined in our company safety program, the risks of injury and illness are minimized or often eliminated.

## OUR TEAM

We are a team of safety and security process specialists who are dedicated, love what they do, respect our clients and their needs, and genuinely care for people's safety.

Our team works with all levels of organizations embracing and encouraging teamwork work maximizing their outputs to ensure they deliver a professional quality service at all times. They elevate themselves to not only meet client expectations but to go beyond.

# OUR PHILOSOPHY

We believe in exceptional customer service and therefore work Hand in Hand with our clients to give them expert solutions and services based on their needs.

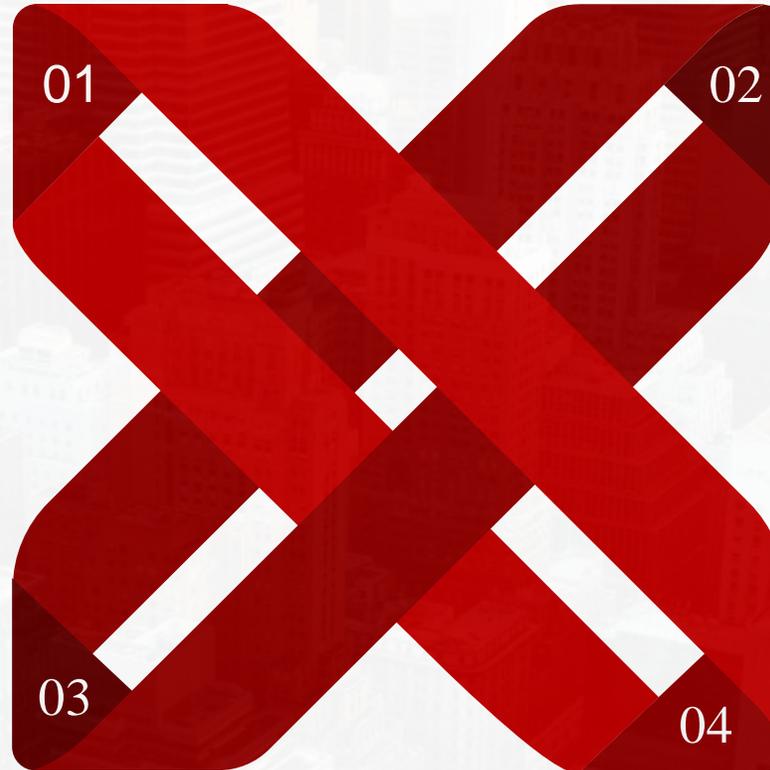

We believe in professionalism and that is why we have an outstanding pool of human resources who are keen on the vision, mission, and current safety and security issues and solutions.

# OUR ETHICS

The behavior of the individual is the starting step for any work in our daily life in general and the frameworks of professional life in particular and the infrastructure on which the essence of work.

The work is not completed as required only by a recognized professional ethic and international charters.

Therefore, the slogan "the code of honor is a way of life" was imposed by imposing on professional life itself. Those who are ethical and committed to public behavior have been assigned to work in the field of work and vice versa.

The company has an important role in enriching the Code of Honor.

- 1- Motivation and participation.
- 2- Creativity and achievement.
- 3- Appreciation and attention.
- 4- Absorption and assessment of conditions.

# Corporate Social Responsibility Initiatives

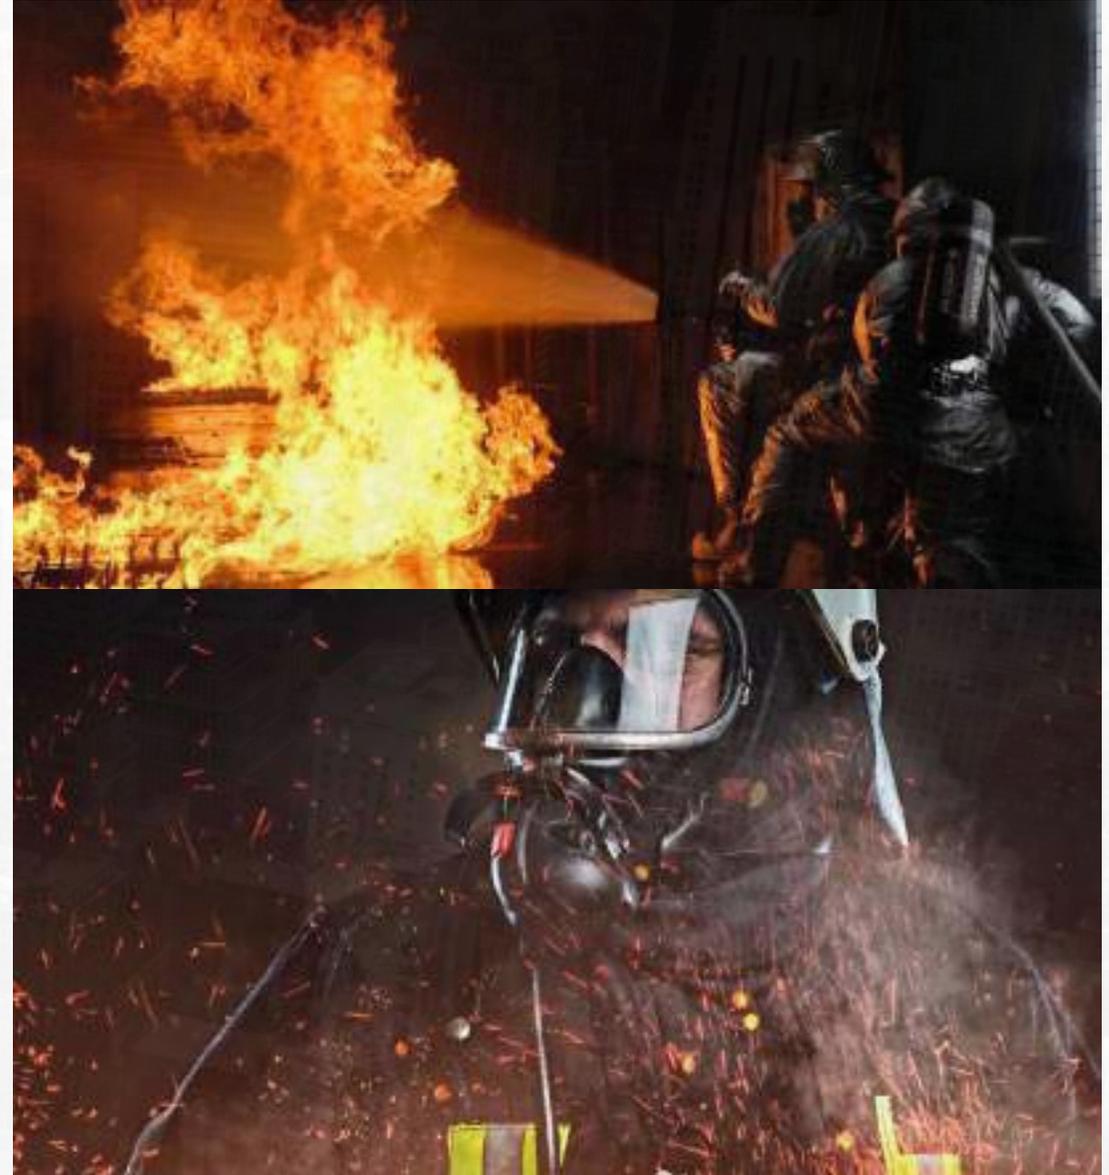

Our corporate philosophy of contributing to the world by pursuing the possibilities inherent in carbon embodies the objective of corporate social responsibility (CSR) itself, namely, contributing to sustainable development. Based on our corporate philosophy, all employees including senior management vow to make ongoing contributions to sustainable development by maintaining healthy relationships with all our stakeholders and working on environmental and social issues.

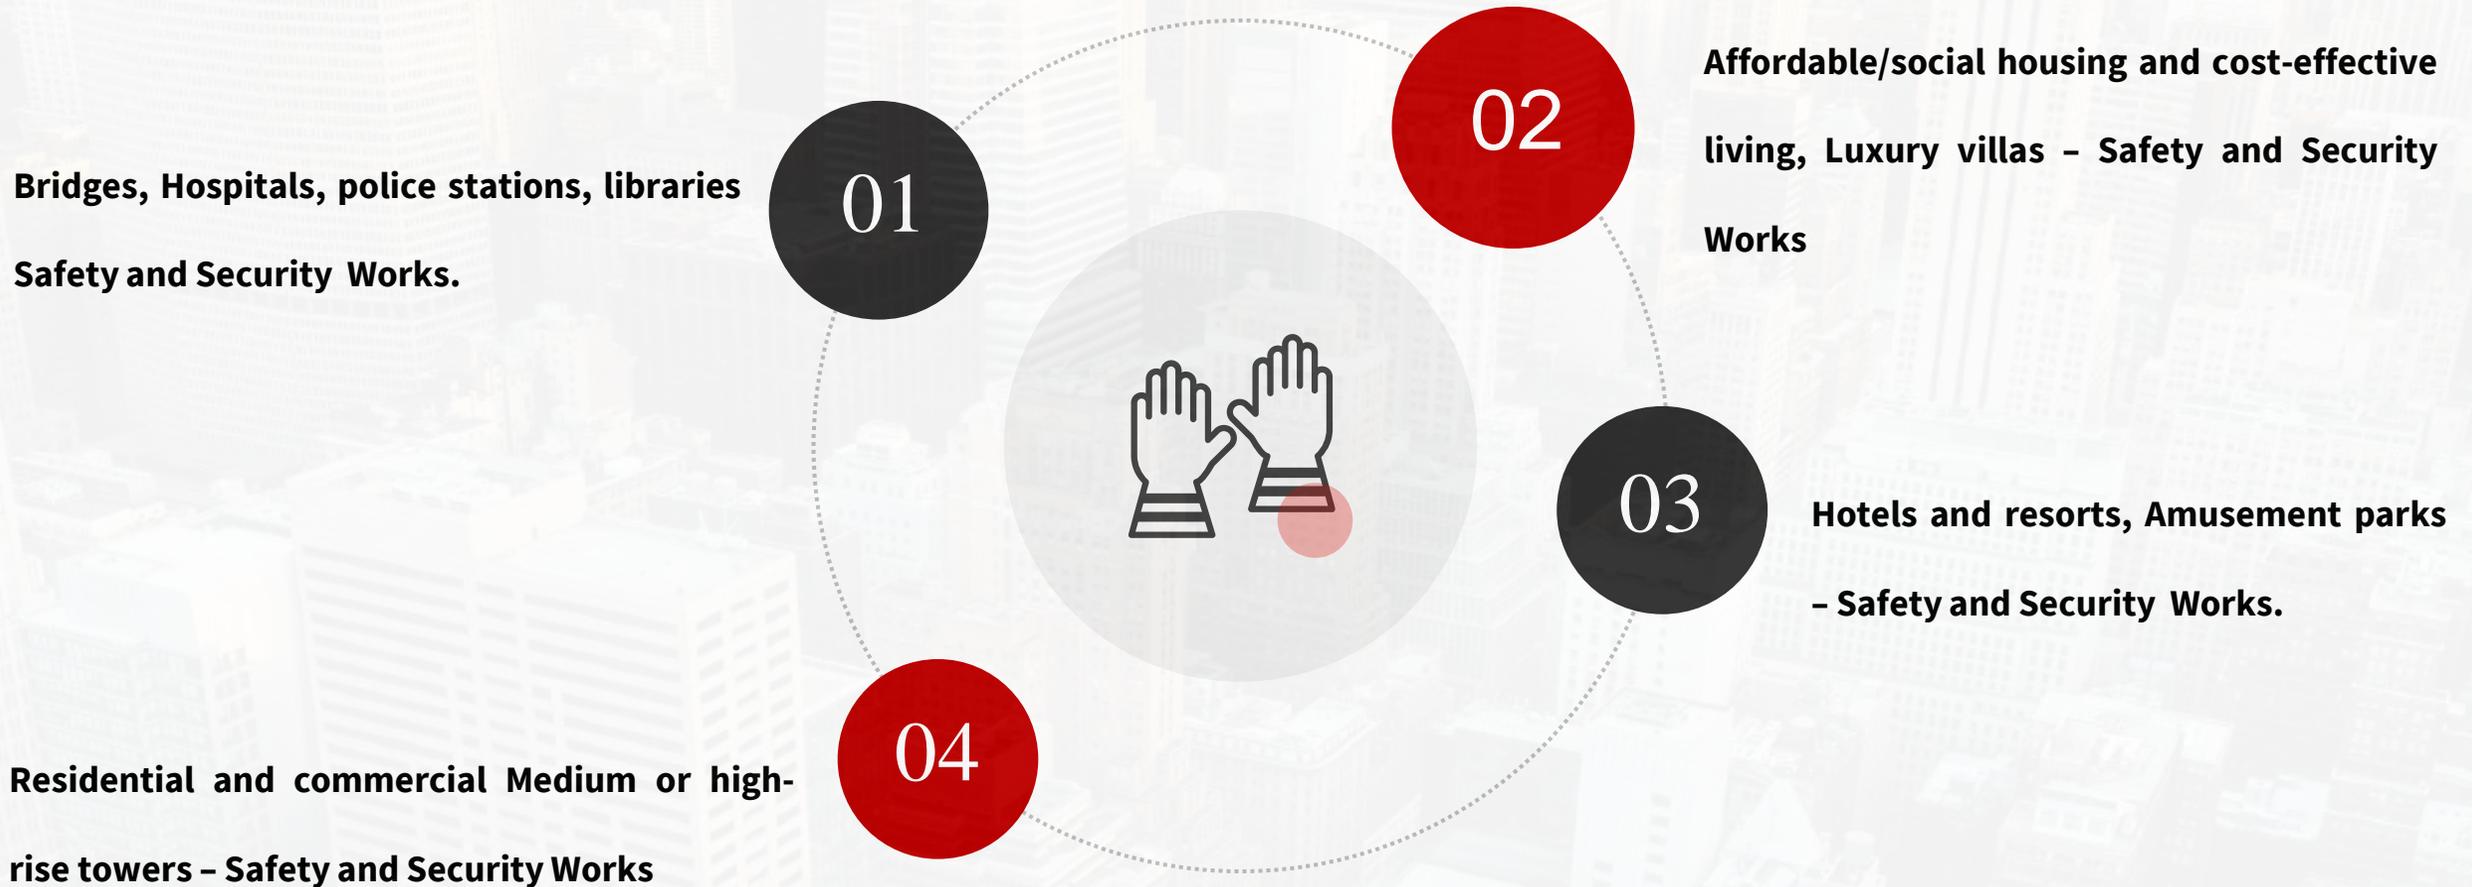

# Company Growth & Expansion

**BASCO** started as an entrepreneurial venture with three engineers and a single-room office.

Over more than five years, BASCO has transformed into a global organization with more than 120 employees, 6+ nationalities, and a diverse product portfolio.

# Scope of Work and Capabilities

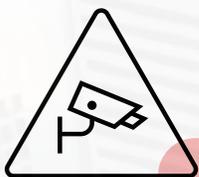

## **Our Services**

Our services include many activities, supporting all industry sectors and covering but not limited to O&G, Construction, Hospitals, factories, and fleet management companies.
